

Using Flag Templates - Photoshop

[Here is a Video Tutorial on these instructions:](http://youtu.be/J11Zpsn7Yo8)
<http://youtu.be/J11Zpsn7Yo8>

1. Open the appropriate template that matches your order.
2. There will be 2 layers, the top layer named `TEMPLATE-DON T ERASE` should be left alone.
3. Only design on the layer below named `ARTWORK HERE` . Any additional layers should be under the `TEMPLATE-DON T ERASE` layer.
4. Flatten the Image (`LAYER>FLATTEN IM-AGE`) and then Save the file as a PDF at 150 DPI
5. Submit the artwork through your order status for that order.
